NEWS ABOUT THE WAR

Lord Roberts Notifies War Office Regarding Minor Fights.

KRUGER'S HOT REPLY TO SALISBURY

President of South African Republic Is Not Frightened at Threat of Being Hanged, Made by English Premier.

London, March 29.—The war office has received the following dispatch from Lord Roberts, dated Bloemfontein, March 28: "General Clements occupied Fauresmith without opposition. One nine-pound and one Martin-Maxim were discovered in a prospecting shaft of a mine, where a large quantity of ammunition was buried. Arms are being surrendered gradually, and the inhabitants are settling down."

"Colonel Pilcher visited Ladybrand on March 26. On leaving the town he was attacked by a party of the enemy, and one of his force was wounded and five are missing."

"During the skirmish north of the Modder river on March 25 five men were wounded. Three are reported to be missing. Captain Sloane-Stanley of the Sixteenth Lancers and five men of that regiment were taken prisoners."

About Roberts' Advance.
London, March 29.—Conjecture as to Lord Roberts' advance from Bloemfontein is the topic of the day and is likely to continue so if the British commander-in-chief in South Africa conceals his movements as carefully as he has done in the past. April 2 is set by various critics as the probable date of the departure of the main army from Bloemfontein. It is pointed out that there will be over a week's hard marching before Kroonstadt is reached, though there seems no certainty that Kroonstadt will entirely occupy Lord Roberts' attention. The advance when it does occur will probably be made by parallel columns along a broad front. The movements of the cavalry force and part of the infantry towards Glen can be construed as an actual advance, although they undoubtedly point to the importance of such a step, but only a small part of General Gatacre's forces have yet arrived at Bloemfontein, and until that movement is completed it is not likely Lord Roberts will start for Pretoria.

Kruger's Hot Reply.
Pretoria, March 29.—Secretary Reitz told of a series of communications between the president and Lord Salisbury concerning the prisoners who were taken by the British at Douglass, Cape Colony, and who, although they became citizens of the Orange Free state, are being tried in Cape-town for high treason. The president sent a cablegram directly to Lord Salisbury, demanding that the Douglass prisoners be treated only as prisoners of war and not as treasonable subjects of her majesty, and stated that if they were executed reprisals would be made. Lord Salisbury replied that if one of the Pretoria prisoners were injured both President Steyn and President Kruger would be hanged at the conclusion of the war. The president thought that was harsh language to use and according to Mr. Reitz's statement, replied in effect: "Go ahead with your hanging, but remember that your son, Lord Edward Cecil, is in Mafeking." Mr. Kruger has no reply to this message.

Why Kruger Laughed.
Pretoria, March 29.—Mr. Kruger explained at length the efforts which the British authorities made to seal up Delagoa bay and then told of the message he sent to Lord Salisbury concerning it. He said he refused to have any more correspondence with Mr. Chamberlain, but frequently called to Lord Salisbury. In one cablegram he asked Lord Salisbury to allow food-stuffs to enter through Delagoa bay or they would be compelled to feed the 3,000 British prisoners in Pretoria on maize porridge. Lord Salisbury did not reply, but a message signed "Chamberlain" explained that the embargo on foodstuffs had been raised three days before. Mr. Kruger laughed heartily when he told that the Chamberlain message was telegraphed back to Lord Salisbury with the query, "Is this true?" The president added: "We haven't heard from Chamberlain since," and laughed for fully half a minute.

Will Hold Egypt Responsible.
Brussels, March 29.—Dr. Leyds, the diplomatic agent of the Transvaal, has drawn the attention of the Egyptian and Turkish governments to the fact that the British government in the

house of commons had admitted that the six maxims were borrowed from the Egyptian army for use in the Transvaal war and has demanded explanations for this breach of neutrality, declaring that unless the guns are immediately returned the Transvaal will consider the Egyptian government has abandoned neutrality and is lending openly its assistance to Great Britain. No reply has been vouchsafed to this protest which was dispatched March 13.

WANTED IN ILLINOIS.

Thomas J. Morrow Arrested For Embezzling Funds of an Estate.

New York, March 29.—Thomas J. Morrow has been arrested here and was arraigned in the police court, charged with being a fugitive from justice from Illinois. The prisoner was committed to await requisition papers and a certified copy of an indictment which the police say has been found in Chicago against Morrow on a charge that he embezzled \$11,000 of the funds of E. W. Lee estate of that city, which the prisoner acted in the capacity of agent during the last two years.

Fears For a Vessel.

Philadelphia, March 29.—Fears are expressed regarding the safety of the British four-masted bark Dunnstaffnage, Captain D. S. Forbes, which sailed from this city February 9 for Hiogo, Japan, with a cargo of refined oil in cases. The last heard of the Dunnstaffnage was the information that on March 6 she had collided with and sunk the British steamer Vernona just north of the equator. After the collision Captain Forbes reported to the captain of the German steamship Pernambuco which rescued the Vernona's crew and that he would endeavor to reach Barnadoes.

War With Russia.

Seattle, Wash., March 29.—The government transport Garonne, from Manila, February 17, has arrived from quarantine with news of active preparations in military naval departments of Japan for war with Russia. The Russian fleet at Nagasaki has disregarded the authorities and anchored where it pleased. The war spirit is said by Captain Conrad of the Garonne to be strong in Japan on account of the czar's secret attempt to great influence in Korea in violation of the treaty.

Arrest of Denning.

San Francisco, March 29.—Captain Peter C. Denning, assistant commissary of subsistence of the United States volunteers, is under arrest at Alcatraz Island. It is alleged that his returns to the war department indicate the existence of a considerable deficit. An investigation is being made into the case. S. W. Groesbeck, judge advocate of the Department of California, is said to be preparing formal charges against him in complicity with orders from Washington.

National Policy Holders.

Cincinnati, March 29.—James T. Minehart of Columbus, O., president of the Policy Holders' National Union, addressed the Business Men's club on the bill pending in the Ohio legislature for a state fire marshal. Under the Massachusetts law for better conditions and detective work, President Minehart said incendiary fires had been reduced from 16 to 4 per cent. An organization was made here to Kentucky like that in Ohio, making 16 states thus organized.

To Name a Chairman.

Indianapolis, Ind., March 29.—The Republican state committee met to discuss details of the state convention April 25-6. For chairman the names of ex-President Harrison, Governor Mount, Senators Beveridge and Fairbanks are mentioned. It is not known yet whether General Harrison would accept. Nothing final was decided upon.

Big Fees Paid.

New York, March 29.—The incorporation at Trenton, N. J., of the American Sheet Steel company completes, it is said, the "Sheet steel trust." The incorporation fee was \$10,400. This fee and that of \$32,000 paid a day or two since by the Carnegie company made a sum sufficient to pay the annual salaries of the state officers.

Coal For Rotterdam.

Philadelphia, March 29.—The Prince Keystone line steamer Dutch Prince is taking on a cargo at this port of 500 tons of bituminous coal for Rotterdam. This is believed to be the first consignment of soft coal from Philadelphia to the Netherlands and it is expected other larger shipments will be made in the near future.

London, March 29.—The Duke of Norfolk has resigned the office of postmaster general owing to the fact that he is going to South Africa with the Sussex yeomanry.

KILLED IN THE HOUSE

Bill Abolishing Pardon Board Said to Be Backed by Governor.

THE SENATE DELAYS FINAL ACTION

On the House Amendment to the Resolution For Sine Die Adjournment Until Wednesday of Next Week.

Columbus, O., March 29.—Governor Nash heard a voice from the house. It was the defeat of the one bill above all others he desired to have passed, the bill introduced in the senate by Mr. Patterson, to abolish the present board of pardons and create in its stead a board of pardon advisers. The bill was passed by the senate some time ago practically without opposition.

Some of the Republicans who did not vote do not approve of the attitude the administration, state as well as national, maintains toward Howard Mannington's candidacy for secretary of state. They are followers of Mr. Daugherty.

The bill was snowed under by a vote of only 29 yeas to 22 nays, 48 members absent or not voting.

Five Democrats voted for the bill, but Adams and Raub afterward changed their votes to no.

To make the defeat certain a motion by Mr. Adams to reconsider was voted down.

The delegation of school teachers from Cleveland was made happy by the passage of the pension bill for Cleveland school teachers. Mr. Mackenzie was the only member of the Cuyahoga delegation who opposed the bill.

Dr. Love's bill to provide a commission to investigate as to the best methods for exterminating the San Jose scale and other infections of orchards, was reported with a number of amendments as to the details of the bill, and was taken up for final consideration immediately after the noon recess.

The anti-San Jose scale bill passed the house, but the appropriation was reduced from \$25,000 to \$15,000.

The following bills were reported by committees with recommendation for passage: By Mr. Magee, to reappropriate unappropriated balances of the appropriation made in 1898 for the erection of the state house annex; by Mr. Hendley, providing that county boards of equalization must complete their work not later than fourth Monday in September, but may be called together by the auditor to act as a board of revision to correct errors or readjust valuations; by Mr. Gear, to authorize fraternal and beneficial societies to make permanent investment of surplus funds in real estate.

Mr. Arthur's bill to compel saloons to be closed Memorial day was on the calendar. When it was reached Mr. Pollock moved that further consideration of the bill be postponed two weeks, which carried by a vote of 48 to 24. This is practically the same thing as an indefinite postponement because, should the bill pass in two weeks, there would scarcely be time to get it through the senate before adjournment.

In the Senate.

When the Roberts park bill (Cleveland) was reached on third reading, the friends of the bill were surprised to find that Senator Elmer had changed front and was now opposing it. He moved to postpone to next Wednesday. As this made it too late to elect at the coming election, under the bill, the effect was defeat so far as the present situation is concerned. Senator Long opposed it, but had no support. Elmer's motion prevailed.

When Patterson's voting machine bill was reached in the senate, Senator Harding proposed a referendum amendment. There was no opposition to this, the friends of the measure realizing that it could not go through without a provision giving the people the right to vote on the adoption of the machines. As amended the bill passed—vote 23 ayes and no nos.

The Archer joint resolution for final adjournment, providing, as amended by the house to make the date April 16, was read in the senate. Senator Archer moved that the senate concur in the amendment. Senator Long moved the postponement of the motion to next Wednesday. This motion prevailed and the senate will hold its decision until the middle of next week. Only three senators voted for immediate action on the resolution.

At Senator Merchant's request his mileage book bill was once more postponed to next Wednesday.

Senator Myers' cigaret bill came back from the committee with a few amendments—most of them technical. Those that go into the matter of the bill tend to make it more drastic.

Senator Harding's bill, amending the law of libel, also came from the committee in the form of a substitute. It provides that where it is proved that the alleged libel was printed under honest misapprehension, and the publisher at once made a full and public retraction, malice cannot be presumed, but must be proved.

NOTABLE OBSEQUIES.

Remains of Dr. Isaac M. Wise Viewed by Thousands.

Cincinnati, March 29.—The funeral of Dr. Isaac M. Wise has brought to this city a large gathering of rabbis as well as of other Hebrews. Over three columns of telegrams of condolence are published in the local papers, including cablegrams from Minister Strauss at Constantinople and others in Europe. In addition to those from congregations and institutions there were telegrams, many from Christians. The family funeral occurred at an early hour at the residence. Then the remains lay in state at the Plum Street temple from 8:30 a. m. until 10 a. m., where constantly moving lines of people viewed the remains. Business was suspended by all Hebrews in this city. The graduates of the Hebrew Union college, from all parts of the country were largely reported among the visitors. The altar was elaborately draped, this drapery will remain 30 days.

The drapery in the chamber of Dr. Wise was ordered to remain one year and the trustees will not have this department occupied for one year. The active pall-bearers were from the graduating class of the Union Hebrew college and the honorary pall-bearers were the trustees of the temple, past presidents and charter members with two members each from other congregations.

A cold rain added to the feeling of gloom, but the services were carried out as planned. The temple was wholly inadequate to accommodate the throng.

After the services at the church a long line of carriages followed the remains to the cemetery in Walnut Hills, some three miles distant, where a prayer was offered by Charles S. Levi of Peoria, Ill., and the body was left in its last resting place.

The Iron Trade.

Cleveland, March 29.—The Iron Trade Review says: "The end of the Carnegie Steel company litigation, the formation of the Carnegie company with \$160,000,000 capital and the launching of the new American Steel Sheet company make the past week the most noteworthy of the year thus far. The developments concerning the Carnegie company are received with general satisfaction in trade as guaranteeing the continued strength of the strongest producer and avertin division that could only cause weakness. The market changes of the week have not been so noteworthy as the corporate movements. The campaign for lower prices for iron and steel products has given rise to some bearish reports, published at New York and freely wired across the country."

Herbert Gladstone's Views.

London, March 29.—Speaking at a breakfast of the Liberal agents at Nottingham, Herbert Gladstone, son of the late William E. Gladstone, and member of parliament for West Leeds, declared that nearly all the Liberals had agreed in regard to the settlement of the South African question; that it was the duty of the government to make a recurrence of the war impossible and to show the world that British power in South Africa was predominant and that the British flag must wave over the whole of South Africa.

Abandoned Investigation.

New York, March 29.—The grand jury has abandoned its investigation into the alleged wrecking of the Third Avenue Railway company. This fact was announced by Assistant District Attorney Unger, who said he advised that body to discontinue the inquiry because there is nothing to show the violation of any criminal laws. The investigation into the company's affairs began after the reorganization of the corporation and its merging into the Metropolitan system.

Frankfort, Ky., March 29.—South Trimble, speaker of the Kentucky house, was announced as a candidate for the Democratic nomination for congress in the Seventh district. Mrs. Emma Gray Cromwell, secretary of the Ladies' Goebel monument fund committee, estimates that \$10,000 has been raised by ladies in the various counties for the monument fund so far. The subscription books will not be closed for two months, by which time the ladies' committee expects to have raised \$50,000.

SPEECH OF BEVERIDGE

In Reference to Attitude of United States to Porto Rico.

FAVORS THE FREEDOM OF TRADE.

The Indiana Statesman Advocates the Giving of the Inhabitants of the Island Immediate Civil Government.

Washington, March 29.—A concurrent resolution offered by Mr. Culverson of Texas in the senate, directing the secretary of war and the secretary of the navy to keep reasonably advised the families of wounded soldiers and sailors of the condition of the men, was agreed to.

Consideration of the Porto Rican tariff and government was then resumed. Mr. Beveridge (Ind.) addressed the senate in support of a proposition for free trade between the United States and the island of Porto Rico.

Among other things, Mr. Beveridge said: "For various reasons I favor immediate reciprocity, and I shall go on record as voting for amendments giving immediate and undisturbed freedom of trade to our islands of Porto Rico, but if we, in the senate, believe that Porto Rico should have reciprocity at once are not able to so amend the bill here, I shall, after voting for reciprocity amendments, vote for the civil government bill as modified by the committee because we must not deny civil government to the people of Porto Rico a moment longer, and because the bill as modified insures free trade with Porto Rico as soon as the civil government of that island provides a system of taxation of its own.

"So that the sooner Porto Rico gets civil government the quicker it will get free trade under the modifications which the committee have made to the bill.

"I should be glad if the bill could be so separated that we might vote for civil government without the revenue feature, although the committee have modified that feature so as to insure early freedom of trade.

"But as the bill stands, unless we can amend it we must vote for it as modified by the committee or else vote against civil government altogether and civil government must no longer be denied to the people of Porto Rico.

Delay of civil government to these people is denial of justice. And so I shall vote for the civil government bill because it does establish civil government at once and because under the modification by the committee, it also establishes absolute reciprocity in the near future. It ought to establish unrestricted trade instantly and it may be that the house will so amend it if we should not so amend it here."

No More Scraps.

Washington, March 29.—The Courier d'Alene investigation opened with no outward evidence of the exciting events of the previous day. Governor Steunenberg was again on the stand with Representative Lentz conducting the cross-examination. The evidence was on unimportant details until Governor Steunenberg was questioned as to a recent petition from the Courier d'Alene district asking the secretary of war to retain federal troops there. This petition has not yet been presented to the federal authorities and the committee went into executive session to determine what to do with the document. The committee decided in executive session to file the petition from the Courier d'Alene with the secretary of war and in the meantime it will not be made public.

Report Is Agreed to.

Washington, March 29.—The conference report on the diplomatic and consular appropriation bill was agreed to by the senate soon after it convened.

New York, March 29.—The United States transport Sedgewick, Captain Hendricks, arrived from Havana and Gibara with 51 cabin passengers and 66 discharged and furloughed soldiers, civilians, etc. The Sedgewick brought nearly \$1,000,000 in specie and a large quantity of Cuban products for the forthcoming Paris exposition. While at Gibara, March 25, 13 members of the transport's crew refused to obey the officer's orders. They were placed in irons and brought to this port for trial. There were also five general prisoners on board from Havana.

Fruit Jar Plant Scorched.

New York, March 29.—Fire at New Brunswick, N. J., did \$103,000 damage to the Consolidated Fruit Jar factory. Three hundred hands are thrown out of employment.

A TELEGRAM in the Times-Star of yesterday announces that the Chicago Board of Education has added "a department for the examination of the eyes" of the pupils of the public schools. Parents are to be duly notified when any defect of vision exists. Our progressive and intelligent Board of Education (which meets this evening) will find it worth while to make a note of this fact. In a city of this size, the proper examining services ought to be secured without cost. Even in larger cities the service is often voluntary.

THERE'S a disposition among the better class of Ohio Republicans to revolt against Boss Hanna's dictatorship, but whether it will result in success remains to be seen. Recently the chief Hanna newspaper of the State printed a special from Washington, stating what the "Administration" wants at the coming Ohio State convention: The nomination of L. C. Laylin for Secretary of State; the election of Hanna, Foraker, Nash and Dick as the "Big Four" to the National convention; the selection of Dick as the committeeman from Ohio, and the reelection of Foraker to the Senate. This "order from Washington" has been the subject of many redhot editorials in numerous Republican papers of the State, which still cling to the tradition that the people are to decide who they want for their candidates. Following is a sample from the Urbana Times-Citizen:

The matchless assumption and gall of the foregoing stands absolutely without parallel in the political history of our country. Its brutal undertone is an insult to every Republican of Ohio. When did the dictator take charge of the Republican party of Ohio and the American republic and by what authority does he act?

The Imperialist Creed.

Article 1.—I believe in keeping up the old war taxes to prevent trade with Europe and the new war taxes to force trade with Asia.

Article 2.—I believe in excluding uneducated Europeans who wish to enter our territory, and in including uneducated Asiatics who wish to keep out.

Article 3.—I believe in home rule for Ireland but in alien rule for the Spanish islands.

Article 4.—I believe the blacks have a right to govern themselves but that whites and blacks have a right to govern browns.

Article 5.—I believe in the Monroe doctrine which forbids Europe to interfere with self government in America, but permits America to interfere with self government in Asia.

Article 6.—I believe that governments get their just powers from the consent of the governed in America, but from contempt for the governed in Asia.

Article 7.—I believe that taxation without representation is tyranny when applied to us but philanthropy when applied to us.

Article 8.—I believe that forcible annexation is criminal aggression but that payment to own-owners makes it benevolent assimilation.

Article 9.—I believe that militarism and foreign broils strengthen despotism abroad but Republicanism at home.

Article 10.—I believe that American policies have made a little America, but that European policies will make a greater America.

WOMEN AT WORK.

They Have Raised \$10,000 so Far for the Goebel Monument Fund.

FRANKFORT, KY., March 29.—Mrs. Emma Guy Cromwell, Secretary of the ladies' branch of the Goebel Monument Fund Committee, says that reports from various counties indicate that from \$8,000 to \$10,000 has been raised by women.

Franklin County leads, with over \$1,000 raised. Warren is second, with Shelby a close third. Mrs. Cromwell estimates that the fund raised by ladies will aggregate \$50,000 by the time the books close.

THIRTY MILLIONS

The Bagatelle Required to Buy Votes for McKinley in 1900.

[Washington Spe. New York World.]

The Republican campaign for "dough" to conduct the fight for the Presidency is about to open. Henry C. Payne, Chairman of the Republican Executive Committee, left here on Sunday after perfecting the plans for the great crusade with Hanna, Dick and other leaders.

The trusts will be the main point of attack. The Republicans raised \$16,000,000 in 1896, mostly from the trusts. This year, owing to the alarm felt by the Republican leaders over the uprising against the Porto Rico tariff bill and other features of the administration's policy, \$30,000,000 will be demanded.

The managers of the combines will be told that there can be no excuses; that if the money is not forthcoming legislation that will seriously hamper if not exterminate them will be pushed through.

The campaign to be made for President McKinley will be conducted on a scale of unparalleled expenditure. Every stump speaker available will be pressed into the service immediately after the June convention.

The President will be sent to San Francisco by special train and back to Washington by another route unless present plans are changed, speaking at the centers of population and from the car platform.

He will spend much time at Canton in order that the popular pilgrimages of 1896 may be repeated. Billions of documents will be sent out.

Millions of copies of Senator Lodge's speech on the Philippines are being printed, and a Republican leader told a World correspondent that there would be one for every voter in the United States.

THE FRAZELL FORTUNE.

President McKinley One of the Heirs—Attorneys Confident of Winning the Case.

Mrs. A. J. Williams, accompanied by Dr. Anna S. Hewins, has returned from a trip to Baltimore, where the former went to look after her interest in the big estate left by her grandfather, John B. Frazell.

As previously announced the estate has been tied up under a ninety-nine year lease. Frazell owned 900 acres of land at one time. He sold 300 acres and leased 600 acres for ninety-nine years. This 600 acres is in the heart of the city of Baltimore, and is what the heirs are seeking to recover. Part of the estate is cash in bank. The lawyers are confident of recovering the fortune, which is valued at \$80,000,000.

Mrs. Williams learned while in Baltimore that President McKinley is one of the heirs.

THE ladies of the new library have already been most kindly remembered by friends from a distance in the gift of books, to say nothing of the entire sets of new works being contributed by such authors as Curtis Guild, of Boston, and James Lane Allen, always of Kentucky, tho' never in it.

MR. "HEN" CRAWFORD, an old Washington boy, was, with his daughter, visiting there Wednesday. "Hen" delights in recounting old times when Dan Rice used to show there, when the Maysville boys had to go to Washington for their shows and when a general fight used to follow. He has never changed politics or religion, and thinks the Republicans must feel mighty common at the drift of things at Frankfort. Mr. Crawford was a Democrat along with his father almost at the time when Jackson was spokesman.

THE CASE ESTATE.

Attorney Geo. W. Adair Working on the Case—it is Placed at \$15,000,000.

[Augusta Chronicle.]

Mrs. G. W. Jones, of Decatur, Ill., and G. W. Adair, of Maysville, attorney in the Case claim, were at Captain Armer's Saturday, meeting many of the heirs.

They had spent the past week in Cleveland and report the condition of affairs quite flattering to the claimants here.

The estate is said to be worth \$15,000,000 or more. May they be successful.

RIVER NEWS.

City of Pittsburgh Inspected—Said to Be the Finest Boat on Upper Ohio—The Sunken Nishet.

The City of Pittsburgh was inspected Thursday at Portsmouth. The Times says: "The Pittsburgh is now, beyond doubt, the finest boat on the upper Ohio. She is as good as new, and even better, and the new battery of boilers are far superior to her former ones. The boat has been handsomely repainted from pilot house to hull and makes an elegant appearance. She is expected to be the fastest boat on the Ohio when she resumes her trips."

Diver Vic Earhart will soon attempt to raise the sunken White Collar Line steamer, W. F. Nisbet, at Wellsville. She has settled considerably and it is feared when the attempt is made to raise her she will break beyond repair.

"There is but one small chance to save your life and that is through an operation" was the awful prospect set before Mrs. I. B. Hunt, of Lime Ridge, Wis., by her doctor after vainly trying to cure her of a frightful case of stomach trouble and yellow jaundice. He didn't count on the marvelous power of Electric Bitters to cure stomach and liver troubles, but she heard of it, took seven bottles, was wholly cured, avoided surgeon's knife, now weighs more and feels better than ever. It's positively guaranteed to cure stomach, liver and kidney troubles and never disappoints. Price 50c., at J. Jas. Wood & Son's drug store.

ROYAL BAKING POWDER CO., NEW YORK.

Sienkiewicz's Masterpiece, "Quo Vadis."

"Quo Vadis," the masterpiece of Henry Sienkiewicz, dramatized by Chas. W. Chase, will be produced at Washington Opera House to-morrow night. The scenes and characters of the play take us into the Roman world and the Roman atmosphere at the time of Rome's decadence and this is historically interesting. There are Nero, the fat Emperor, crazed by the abundance of power—poetaster, musician and tiger; Poppea, wily, snakelike, lustful; then the noble, high-souled Petronius, the cringing, vengeful, yet repentant Greek philosopher, Chilo; Ursus, the fair-haired mighty-limbed barbarian, and Lygia, the Christian maiden, the Apostle Peter and a hint of the court whose magnificent dissolution and inexhaustible resources of lust and crime have been the astonishment of the world. And we have the exalted enthusiasm of the Christian martyrs, their inspired and steadfast faith. The torture of the martyrs, the cruelty of the imperial court and the doom in the arena, all carry the audience back with deep and overpowering impressions to the strength and triumph of the early Christian Church.

Joe Flynn in "Hagan's Alley."

In every prominent city in the country for the past three seasons this noted whirlwind musical farce comedy met with success. It is redolent of New York life. Full of pretty girls, bright catchy dialogue, the most excruciating comic situations and numberless other features. Joe Flynn and a big company, including leading farce comedy stars, will interpret it. Washington Opera House, Monday night, April 2nd.

The Kansan editor who acknowledged the gift of a peck of onions from a subscriber by saying: "It is such kindness as this that brings tears to our eyes," shows an appreciation of the literal which is refreshing.—Newspaperdom.

A Helpless Child.

A weak and puny child is badly handicapped in the battle of life. It is isolated from the healthy enjoyments of its little fellow-beings. It cannot partake either of their play or their sturdy work and progress in the world; its whole life is embittered by incapacity and weakness.

Any woman who expects to become a mother ought to know what Dr. Pierce's Favorite Prescription will do for her own health and safety during her time of trial and also to insure her in bequeathing a fair measure of health and strength to the prospective little one.

DOWN IN CUBA.

Personal Observations for the Young Ladies' Foreign Missionary Society.

Interesting Letter About the People and Educational Facilities of the Sunny Isles—Field for Mission Work.

Sadly transplanted from the frozen Northland to the blue skies and balmy breezes of Cuba, one forgets the biting frosts and chilling winds of midwinter and lives in an atmosphere of sunshine.

The plain low dwellings with their flat roofs and inner court yards carry us in imagination to Bible lands where the Patriarchs went on the housetop to pray and the pious man was let down to be healed.

The glorious sunsets over the palm-crowned hills, the golden moon rising over the beautiful bay, the varied and luxuriant flora of valley and plain, together with the tragic story of its liberty-loving people, furnish themes for poet and painter.

Cuba has had a past of oppression, is in a transitory present and may have a bright future, which is hard to forecast from facts to be gathered to-day. Her people fought for freedom and for freedom they still enjoy, though the Stars and Stripes wave over government buildings and the humanitarianism of the United States improves her cities and clothes and feeds the poor and hungry. What the Cubans would do if entrusted with their own government no one can tell. What the Cubans can become under the influence of American institutions one can easily see from those who have gone through Northern universities and come back to their land and people. To be sure it will be many years before the island will be able to overcome the influence of 400 years of Spanish guardianship, and its hope is in the children, who are innumerable.

In the cities one finds wealth and culture, but the system of education is quite ancient. Their text books are inferior and they are taught by rote. Pages are memorized by little children without the slightest conception of the practical significance of single paragraph. There are many schools taught in dwelling houses. The same style of house serves all purposes; sometimes furnished with about such furniture as our own fathers and mothers in country districts knew years ago. There are convents and monasteries of course which may be better equipped.

The children study aloud and I think learn more by ear than by sense. But they are bright, teachable and lovable. With new text-books and modern school-rooms and modern teachers wonders may be accomplished.

The same renders have been used for fifty years. Arithmetic as taught is a succession of definitions with hardly a page of practical work in the whole book. I am sure American children would stagnate under such influences, and yet the Cubans have grown up to be quite intelligent.

The girls are taught much music and fancy work and the extreme degree of French face powder. The men spend their time in the cafes, overmuch wine, but never get drunk. As a race, both men and women are devoid of physique, though the indoor life the women lead tends to increase avorudous with increasing years, and the universally slow movements and ease do not give strength and muscle.

Everything seems to move at an indifferent pace. Yet our people at home do not respond to the cries of willing workers and the work is hindered by want of means to carry it on. Charity begins at home, but extends to the uttermost parts of the earth, and that will embrace Cuba.
